

INTERACTIVE SCREENING OF BE SAFE

What would your teen or adult with Autism Spectrum Disorder do in an encounter with the police? The answer to this question is too important to be left to chance! Bring your young adult to a free interactive screening of the **BE SAFE The Movie**. We will watch scenes from **BE SAFE The Movie** and do fun safety activities with local police or sheriffs!

Wednesday, August 20, 2014
Veterans Memorial Building, Rotunda Room
4117 Overland Avenue, Culver City, CA 90230
Noon to 2:30 PM

BE SAFE The Movie is a unique new video modeling tool that teaches individuals with ASD to interact safely with the police in situations ranging from an everyday encounter to an arrest.

Everyone who attends the screening will receive a free copy of **BE SAFE The Movie** made possible by a generous donation from **The Autism Society of Los Angeles** and **The California Wellness Foundation**.

For more information contact Susan Osborne at 310 569 9308 or sosborne.asis@gmail.com. Admittance is free and donations are being accepted to cover event costs. Click on [GO FUND ME](#) to send in your tax deductible contribution.

PLEASE NOTE: This is **not** a drop-off event. Teens and adults with disabilities who require supervision must be accompanied and monitored by a parent or caregiver. Due to the serious nature of the subject matter, attendees must be a minimum age of 13 to attend.

About our presenter Emily Iland, M.A is an award-winning author, researcher and leader in the autism field. As the mother of a young man with ASD and having personally trained thousands of law enforcement professionals, she brings experience and insight to her work, with a special focus on safety.
